| <p>Overall Assessment of Risk of Current Use of the Substance</p>  | <p><input checked="" type="checkbox"/> <b>Low</b><br/>A low-risk score means the substance poses minimal danger under normal working conditions and when proper controls (e.g., PPE, ventilation) are in place. Routine monitoring is sufficient, and there is no immediate concern for harm.</p> | <p><input type="checkbox"/> <b>Medium</b><br/>A medium-risk score indicates a moderate chance of harm. This suggests that additional precautions or stricter controls may be required to prevent exposure, such as improving handling procedures or enhancing protective measures.</p> | <p><input type="checkbox"/> <b>High</b><br/>A high-risk score means there is a significant likelihood of harm, either due to the nature of the substance or insufficient controls. Immediate action is required to eliminate or reduce exposure to an acceptable level, such as substituting the substance, upgrading safety measures, or improving training and supervision.</p> |

The data sheet is for alcohol wipes as these are the only item that require a data sheet.

**SAFETY DATA SHEET**

**Alcohol Surface Wipes**

**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

**1.1. Product identifier**

**Product name** Alcohol Surface Wipes

**Product code** H9720, H9721, H9723

**1.2. Relevant identified uses of the substance or mixture and uses advised against Identified uses**

**Disinfectant wipe**

**Use descriptors** PC8 – Biocidal Products (e.g. Disinfectant, pest control)

**Uses advised against** None known

**1.3. Details of the supplier of the safety data sheet**

**Company and address** Guest Medical Limited

**Unit A6, Larkfield Trading Estate, New Hythe  
Lane, Aylesford. Kent. ME20 6SW T: +44(0) 1622  
791895, (Hours 09:00- 17:00 Mon to Fri)**

**E-mail** [technical@guest-medical.co.uk](mailto:technical@guest-medical.co.uk)

**SDS Version** 1.0

**Revision date** 12/01/2023

**1.4. Emergency telephone number**

**Contact The National Poisons Information  
Service (dial 111, 24h service). See Section 4  
“First Aid Measures”**

**SECTION 2: Hazards identification**

**2.1. Classification of the substance or mixture**

**Flam. Liq 3; H225, Highly**

**Flammable liquid and vapour. Eye**

**Irrit. 2; H319, Causes serious eye  
irritation.**

**STOT SE 3; H336, May cause drowsiness or dizziness.**

## 2.2. Label elements

Hazard Pictogram(s)

Signal word

**Danger**

Hazard statement(s)

**H225, Highly flammable**

**liquid and vapour. H319,**

**Causes serious eye**

**irritation.**

**H336, May cause drowsiness or dizziness**

Safety statement(s)

Prevention

**P210, Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233, Keep container tightly closed.**

**P240, Ground/bond container and receiving equipment.**

**P241, Use explosion-proof electrical/ventilation/lighting/equipment.**

**P242, Use only non-sparking tools.**

**P243, Take precautionary measures against static discharge. P261, Avoid breathing**

**dust/fume/gas/mist/vapours/spray.**

**P264, Wash thoroughly after handling.**

**P271, Use only outdoors or in a well-ventilated area.**

**P280, Wear protective gloves/protective clothing/eye protection/face protection.**

Response

**P303 + P361 + P353, IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P304 + P340, IF**

**INHALED: Remove person to fresh air and keep comfortable for breathing.**

**P319, Get medical help if you feel unwell.**

**P305 + P351 + P338, IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing.**

**P337 + P313, If eye irritation persists: Get medical advice/attention.**

**P370 + P378, In case of fire; use alcohol resistant foam, Carbon dioxide (CO<sub>2</sub>), use extinguishing media appropriate to the surrounding fire conditions.**

Storage

**P403 + P233, Store in a well-ventilated place.**

**Keep container tightly closed. P405, Store locked up.**

Disposal

**P501, Dispose of contents/container in accordance with local, state or national regulation.**

Hazardous substances

**Isopropanol (Propan-2-ol)**

Additional labelling

**Not applicable.**

## 2.3 Other hazards

**In confined spaces, vapours may build up to form flammable vapour/air mixtures.**

**This mixture/product does not contain any substances considered to meet the criteria classifying them as PBT and/or vPvB. This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.**

### SECTION 3: Composition/information on ingredients

#### 3.1 Substances

**Not applicable. This product is a mixture.**

#### 3.2. Mixtures

| Product / substance       | Identifiers                        | % w / w   | Classification                                              | Notes                                   |
|---------------------------|------------------------------------|-----------|-------------------------------------------------------------|-----------------------------------------|
| Isopropanol (Propan-2-ol) | CAS No: 64-63-0<br>EC No: 200-61-7 | 60 – 70 % | Flam. Liq. 2, H225<br>Eye Irrit. 2, H319<br>STOT SE 3, H336 | Hazard<br>Pictograms:<br>GHS02<br>GHS07 |

**See full text H-phrases in Section 16. Occupational exposure limits are listed in Section 8, if available.**

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

##### Inhalation

**IF INHALED: Remove person to fresh air and keep comfortable for breathing. Seek medical attention if irritation or symptoms persist.**

##### Ingestion

**Rinse mouth thoroughly with water. Do NOT induce vomiting. Seek medical attention if irritation or symptoms persist.**

##### Skin contact

**No irritation expected. Rinse skin with soap and water. Seek medical attention if irritation or symptoms persist.**

##### Eye contact

**Bathe the eye immediately with running water for 15 minutes holding the eyelids open. Seek medical attention if irritation or symptoms persist.**

#### 4.2 Most important symptoms and effects, both acute and delayed

**On inhalation, vapours may cause drowsiness or dizziness.**

**There may be irritation and redness on eye contact. If symptoms persist, seek medical advice.**

#### 4.3 Indication of any immediate medical attention and special treatment needed

**If you feel unwell, seek medical advice (show label where possible). Treat symptomatically.**

## SECTION 5: Firefighting measures

### 5.1. Extinguishing

media Suitable

extinguishing

media

**Use alcohol resistant foam, water spray, Carbon dioxide (CO<sub>2</sub>), dry chemical powder.**

Unsuitable extinguishing media

**Water jet spray should not be used.**

### 5.2. Special hazards arising from the substance or mixture

**Vapour may travel considerable distance to source of ignition and flash back.**

### 5.3. Advice for firefighters

**Wear self-contained breathing apparatus. Wear protective clothing as appropriate.**

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Avoid breathing dust/fumes/gas/mist/vapours/spray. Take precautionary measures against static discharge. Ensure adequate ventilation of the work area.**

### 6.2. Environmental precautions

**Do not allow product to enter drains.**

### 6.3. Methods and material for containment and cleaning up

**Product is fully absorbed and cannot be spilled. Collect wipes and place in a sealable container for disposal.**

### 6.4. Reference to other sections

**See Section 8 “Exposure controls / personal protection” for protective measures See Section 13 “Disposal considerations” on handling of waste.**

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Keep away from sources of ignition. Do not eat, drink or smoke when using this product. Ensure adequate ventilation. Avoid inhalation of vapours. Avoid contact with eyes and prolonged skin contact. Keep out of reach of children.**

### 7.2. Conditions for safe storage, including

any incompatibilities Technical  
measures

**Take precautionary measures against static discharge. Ensure lighting and electrical equipment are not a source of ignition.**

Recommended storage material

**Store in a cool, dry, well-ventilated area. Store locked up. Keep container tightly closed when not in use . Keep away from sources of ignition.**

Storage temperature

**Ambient temperature and humidity. Do NOT allow to freeze.**

Incompatible materials

**Strong oxidising agents.**

### 7.3. Specific end use(s)

**This product should only be used for applications quoted in Section 1.2.**

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

Occupational  
exposure limits.

#### Isopropanol (Propan-2-ol)

| Occupational Exposure Limits |                   |                                  |                      |                                     |
|------------------------------|-------------------|----------------------------------|----------------------|-------------------------------------|

**Source – UK Workplace Exposure Limits EH40**

### 8.2. Exposure controls

Appropriate engineering controls

**Ensure adequate ventilation. Keep away from sources of ignition.**

Individual protection measures, such as personal

protective equipment Respiratory protection

**Not necessary during normal handling and use.**

## Hand protection

| Material                                                                                        | Glove thickness (mm)                                                          | Breakthrough time (min)                                                       | Standards                                                                     |                                                                                     |
|-------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Wear protective impervious gloves (EN 374) as necessary or if handling a large number of wipes. | As specified for glove type specified through individual use risk assessment. | As specified for glove type specified through individual use risk assessment. | As specified for glove type specified through individual use risk assessment. |  |

## Eye / face protection

**Not necessary during normal handling and use. If risk of splashing, safety goggles may be necessary.**

Environmental exposure controls

**Prevent from entering into public sewers or drains.**

## SECTION 9: Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties Physical state

Wet

cloth

**Colour**  
**colourless liquid**

**White cloth impregnated with clear,**

Odour

Alcoholic

Melting point / freezing point (°C)

No data available

Boiling point (°C)

No data available

Flammability (°C)

No data available (Flammable solid)

Lower and Upper explosion limit (% v/v)

Not classified as explosive

Flash point (°C)

18

Auto-ignition temperature (°C)

No data available

Decomposition temperature (°C)

No data available

pH

~7.0

Kinematic viscosity

No data available

Solubility

Soluble in water

Partition coefficient

No data available

No data available

Density and / or relative density

No data available

Relative vapour density

No data available

Particle characteristics

No data available

## 9.2. Other information

**No additional information available.**

## SECTION 10: Stability and Reactivity

### 10.1. Reactivity

**Stable under normal conditions of handling and storage.**

### 10.2. Chemical Stability

**The product is stable under the conditions, noted in section 7 “Handling and storage”.**

### 10.3. Possibility of hazardous reactions

**No hazardous reactions expected under normal conditions of handling and storage.**

### 10.4. Conditions to avoid

**Heat. Hot surfaces. Sources of ignition. Flames. Do not allow to freeze.**

### 10.5. Incompatible materials

**Strong oxidising agents.**

### 10.6. Hazardous decomposition products

**Under normal conditions of storage and use, hazardous decomposition products should not be produced.**

## SECTION 11: Toxicological information

- 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008 as retained and amended in UK law Acute toxicity

**Based on available data the classification criteria are not met.**

Skin corrosion / irritation

**Based on available data, the classification criteria are not met.**

Serious eye damage

Causes serious eye irritation.

Respiratory sensitisation

**Based on available data, the classification criteria are not met.**

Skin sensitisation

**Based on available data, the classification criteria are not met.**

Germ cell mutagenicity

**Based on available data, the classification criteria are not met.**

Carcinogenicity

**Based on available data, the classification criteria are not met.**

Reproductive toxicity

**Based on available data, the classification criteria are not met.**

STOT – single exposure

**May cause drowsiness or dizziness.**

STOT – repeated exposure

**Based on available data, the classification criteria are not met.**

Aspiration hazard

**Based on available data, the classification criteria are not met.**

## 11.2 Information on

other hazards

Long term effects

**None known.**

Endocrine disrupting properties

None known.

**Other information**

None known

## SECTION 12: Ecological information

### 12.1. Toxicity

**The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.**

### 12.2. Persistence and degradability

**Isopropanol (Propan-2-ol) is biodegradable. The tissue material is expected to biodegrade.**

### 12.3. Bioaccumulative potential

**No data available.**

### 12.4. Mobility in soil

**No data available. The product is soluble in water.**

### 12.5. Results of PBT and vPvB assessment

**This mixture does not contain any non-classified PBT or vPvB substances.**

### 12.6. Endocrine disrupting properties

**None known.**

### 12.7. Other adverse effects

**None known.**

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

**Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional or national regulation.**

Additional Information

**Handle empty containers with care because residual vapours are flammable.**

### 14.6 Special precautions for user

**Not applicable.**

### 14.7 Transport in bulk according to IMO instruments

**Not applicable.**

## SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture  
Restrictions for application

**None known.**

Restriction on use

**Not listed.**

National regulations

**None known.**
